## Software Developer — Java / Spring Boot

doguhanerbil@gmail.com | +90 (531) 690 43 61 | linkedin.com/in/ahmet-doguhan-erbil | github.com/doguhanerbil  
doguhanerbil.com | Istanbul, Türkiye

### Summary

Software developer with 3 years of professional experience, the last 2 focused on backend development with Java and Spring Boot on PostgreSQL. I built and supported a warehouse management platform for enterprise clients, along with ERP and CRM integrations — REST API endpoints, service layers and data access — and I was responsible for taking developments through test and production environments. Comfortable on the frontend (ReactJS / Next.js) when a feature needs to be delivered end to end. Earlier background in test automation and IT infrastructure. Available immediately; open to remote work and relocation; fluent English.

### Technical Skills

**Languages:** Java, JavaScript, TypeScript, SQL, Python

**Backend:** Spring Boot, Spring Data JPA, Hibernate, REST APIs, service layer design

**Data:** PostgreSQL, MySQL, SQL, data access and queries with Spring Data JPA / Hibernate

**DevOps & Tools:** Docker, CI/CD (GitLab CI), Git, GitHub, GitLab, Maven, Linux

**Testing:** JUnit, Selenium, Postman, automated regression testing

**Frontend:** ReactJS, Next.js, Angular, HTML, CSS

**Practices:** Agile/Scrum, code review, technical documentation

**Familiar with:** Microservices, Spring Security, Swagger/OpenAPI, Redis, Kafka, Docker Compose, AWS, Kubernetes

### Work Experience

#### Software Developer — Hisar Intercontinental Hospital

Aurora Bilişim (software development unit) | Istanbul, Türkiye | July 2024 – September 2026

- Developed and supported a warehouse management platform for enterprise clients — Java / Spring Boot backend on PostgreSQL with a ReactJS frontend — covering inventory, order and shipment modules.
- Built and maintained REST API endpoints and service layers: endpoint contracts, validation, error handling and data access with Spring Data JPA, plus ERP and CRM integrations with client systems.
- Wrote and maintained the SQL and JPA queries behind these modules, working with PostgreSQL day to day.
- Set up and ran the CI/CD pipelines for the project's builds, containerised deployments and automated test runs.
- Took developments through test and production environments, including release and verification steps.
- Contributed to an R&D project for a hospital medication-dispensing and stock-tracking system, including the integration layer feeding drug-consumption data into the hospital information system.
- Worked in an agile team with product and QA, took part in code review and documented the modules I owned.

#### Military Service — Turkish Armed Forces (National Defence University)

Reserve Officer, Wide Area Network Operator | Istanbul, Türkiye | May 2023 – May 2024 | compulsory service

- Operated and supported the wide area network: switch and port configuration, structured cabling and internet connectivity.
- Provided live technical support to end users, including hardware and printer troubleshooting.

#### Software Test Engineer / Software Assistant Specialist — Hisar Intercontinental Hospital

Aurora Bilişim (software development unit) | Istanbul, Türkiye | August 2022 – April 2023

- Started as a software specialist assistant and contributed to backend development in Java for the company's ERP product.
- Continued as a software test engineer: built automated regression tests with Selenium (Python), ran API tests with Postman, and carried out manual testing.
- Contributed to the ERP frontend (Angular) and to internal tooling in Python.

### Projects

- **Customer & supplier management system** — Next.js, PostgreSQL, Zod, shadcn/ui; full CRUD, validation and reporting for day-to-day operations.
- **Wakari** — iOS alarm app (Swift, SwiftUI, SwiftData) built and shipped solo to TestFlight, including subscriptions and release management.

### Education

**Altınbaş University** — Istanbul, Türkiye

Bachelor of Science in Computer Engineering (2016 – 2021)

### Languages

English – C1 (Professional Working Proficiency) | Turkish – Native
